New Business

Discussion on updating our CC&Rs to include additional language to not allow Fractional Ownership. Seth Beal explained what it is, and how it would affect the neighborhood. While the current CC&Rs may cover the issue, we want to have more specific language in the CC&Rs for the future. Questions/comments were addressed. Discussion on why this would be handled as a separate item with a separate proxy in the new year, as 80% of the homeowners are needed to change the CC&Rs. By a show of hands, all in attendance thought adding the additional language was appropriate.

Questions and answers followed discussing the 2043 sunset of our HOA, up zoning criteria, and the State mandate for increased housing.

Other Business

Accessory Dwelling Units/Apartments

Issue was raised by Nancy Johnson to learn what the HOA was doing to help keep ADUs from being built in our HOA. We should be covered based on the total allowable square footage per lot covers us on this fairly well.

Taxation discussion with a question about when properties are assessed.

Introduction of new City Councilman Bill Ciraco and some comments were shared by him – fractional ownership, ADUs, workforce/affordable housing, building by the movie studio, other building, potential Gordo parking project (<https://www.kpcw.org/park-city/2023-09-22/gordo-property-on-sr-248-seen-as-future-park-and-ride>), traffic, childcare and more. Another question came up about the makeup of the city council members which Bill answered with each member's name. Then he discussed his background and perspectives on Vail and Alterra needing to be better community members as a priority for us all.

Motion to adjourn: Eric Juhlin, Second Motion: Alison Cook

The meeting concluded at 6:30 PM.
